

Exercise 1.1

- vis. 1

cons:

- parts don't add up to 100%, reason is given in small letters
- too much text, maybe add legend
- Donut/Pie chart is not good in general
 - Human perception of area is poor
 - Hard to compare 2 items
- white lines confusing

pro:

- color scheme
- icons for visualisation, scale
- portions ordered by size
- colours
- only as much colour as needed

- vis 2

pros:

- index for people trying to sell houses → trend clear

cons:

- diagram sizes are very similar (mittle bars)
- information scattered
- visual clutter (distracting background, colours ...)
- missing axes → no details on diagram
- calculation of index?

connection regional & california index?

- center-aligned, long sentence
- contrast of number on top and 3 bars too low
- arrow on bars not aligned
- arrow on top differently scaled
